Re : Invitation for ASEM SNS III, Yogyakarta, 4-6 November 2014

To ASEM Senior Officials

19 September 2014

Dear Senior Officials,

Please accept this letter as an invitation to all ASEM partners to participate at the third Asia-Europe Meeting (ASEM) Seminar on Nuclear Safety which will be held from 4 to 6 November 2014 in Yogyakarta, Indonesia. Attached herewith are the concept paper and draft programme for your reference.

Nuclear safety remains the top priority in the use of nuclear energy. In light of recent nuclear accidents, many lessons can be learnt, especially in continuous improvement on the national infrastructure on nuclear safety and the independence of regulatory body. While most countries have established nuclear-related legal and regulatory framework, it is imperative to consider the effectiveness, transparency and sustainability of the established national safety infrastructure.

The main purpose of the ASEM Seminar on Nuclear Safety is to foster Asia-Europe capacity building and co-operation in nuclear safety by enhancing discussion and partnership within ASEM framework. Such endeavour has been initiated by Singapore in 2012 and followed by Lithuania in 2013. In the ASEM Seminar in Indonesia, we propose to focus on identifying important elements of effectiveness, transparency, and sustainability of nuclear safety infrastructure, both at national and international levels.

In this regards, Indonesia has the honour to invite ASEM Partners to send their respective delegations and speakers to the forthcoming Seminar. Kindly note that the registration for participants will be open until **17 October 2014**. For registration instructions and other relevant information, please refer to the attached administrative notes.

Thank you for your kind attention and co-operation.

Sincerely yours,

Prof. Jazi Ekolstiyanto

Chairman

Nuclear Energy Regulatory Agency (BAPETEN)

Indonesia
